ANTIBACTERIAL FOAM WASH P5

SANITISING HAND CLEANSER 1 LITRE POD

DESCRIPTION

RapidClean Foam Wash Antibacterial is a fragrance free, sanitising foaming washroom hand cleanser. It is designed for use in the following industrial situations: food processing plants, canteens, restaurants, kitchens, kindergartens and schools, nursing homes, effluent and waste disposal sites, janitors and industrial washrooms.

Use RapidClean Foam Wash Antibacterial to clean and sanitise hands before handling food or after cleaning up waste which may be microbiologically contaminated. It produces a rich lather combined with a gentle cleansing action and is based on low irritant, biodegradable surfactants with skin emollients to prevent dry skin.

DIRECTIONS FOR USE

1. Apply 1 to 2 Pumps of product onto hands
2. Massage into the skin between fingers and under the nails.
3. Add a little water if required to maintain a good lather
4. Rinse off with cold or warm water potable water and dry

HEALTH & SAFETY INFORMATION

See separate SDS available on request.
