

TORQUE

Torque is a concentrated grease and grime remover designed to quickly clean all surfaces. With built in rust inhibiting agents, it is suitable for removal of oils, fats and water based soiling without corroding machinery.

DIRECTIONS FOR USE

Dilute in hot or cold water as required and apply to the surface by spray, mop, scourer, brush, scrubbing machine, high pressure cleaner, foaming gun or steam cleaner.

Pick up slurry and rinse well with clean water.

DILUTION RATES

Spray
Mopping
Hand Washing
Pressure Cleaning

1 in 10
1 cup per 10L
¼ cup per 10L
1 in 200

SAFETY NOTES

Torque being a heavy duty degreaser may defat the skin. Gloves and eye protection are highly recommended when handling the product. For further information consult Safety Data Sheet.
